Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 August 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Harrison (US 6,168,061) in view of Alvarez Gonzalez (US 5,423,530), Widman (US 4,974,842), and Houser (US 2,768,775).

Harrison discloses the invention substantially as claimed including a caddy device 10 which is capable of being detachably mountable in a separate base, the caddy device having: a contoured elongate body with cups 19 and 20, the cup having stencils 23 and 24; a recess 29 for holding a divot repair device 28; a first and second retaining members 26 for holding golf tees 25; and a clip 11. Harrison does not disclose clasps on the cup, a divot repair device with horns and ridges for holding a ball marker as claimed, or the clip being removably inserted into the body.

Regarding the clasps, Gonzalez teaches a similar caddy device having cup portions 2, the cups having a plurality of clasps 6 for securing a ball within the cup. It would have been obvious to one skilled in the art at the time of invention to have provided the cups of Harrison with a plurality of clasps as taught by Gonzalez in order to more securely hold the golf balls within the cups.

Regarding the divot repair device, Widman teaches a divot repair device 1 including: an elongated bottom portion with prongs 5 and 6; a rounded upper portion at lead line 2 with first and second horns 8 and 9 formed on the top edge; a recess 3 formed centrally therein; first and second ridges 17 and 18 near the aperture; and a ball marker 4 adapted to held within the recess 3 by use of the ridges 17 and 18. It would have been obvious to one skilled in the art, that the divot repair device of Widman could be held in the recess 29 of Harrison, in order to provide a divot repair tool having more features.

Regarding the clip being removably inserted into the body, Houser teaches an similar caddy device wherein a clip 10 is provided to secure the caddy to the belt of the user, and wherein the clip is removably attached and inserted to the body at recess 11. It would have been obvious to one skilled in the art at the time of invention to exchange the clip 11 of Harrison with the removable spring clip 10 of Houser, in order to make the caddy useable with or without a clip.

Regarding claim 19, the ball marker 4 of Widman is disclosed as being a dime.

Allowable Subject Matter

3. Claims 2-9 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 10 and 19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
